The Public Roads.

Editor Democrat:—Allow a little
space in your paper to say something
to the taxpayers concerning the road
question, as I see so much on that ques-
tion nowadays. They tell me that we
pay over \$6,000 annually on the roads
in Suwannee county in the way in
which they are contracted to be
worked.

Now, Mr. Editor, I have traveled
over almost every public road in the
county within the last few months, and
outside the towns I could do every bit

of the work that has been done inside
of sixty days, myself, and that without
any help, that has been done in the
county, and yet people complain of
bad roads and high tax. Well, no won-
der, when so much money is given for
nothing. Taxpayers, why don't you
come together and say that we will
work the roads in the old way, our-
selves, before we will suffer any such
thing to go on.

Let every man of road age come to-
gether and work, say one day in the
year, and we will have much better
roads and lessen taxes considerably,

and it would be so much better; and
then if you would come together as one
man and say we will have our convicts
to work our own roads and you help
them and see that it was done right, it
would surprise you how much better
roads you would soon have. It would
be an honor to your county in the sav-
ing of thousands of dollars besides.

As it is now, in many places you can't
tell a public road from a private road.
Study this thing out and see where
it would save you money. As it is, see
how many whose duty it is to work, do

neither work nor pay taxes. I write
as I hear so much said about roads and
taxes. Yours for the betterment of
our county.
